Monthly Livestock Report

Issue 032
25 November 2016

Methodology

Data Sources: The data are obtained from the Meat Board of Namibia and the Agricultural Union of Namibia.

Base year: Livestock sectoral report is harmonised with the quarterly and annual national accounts base year 2010.

Calculations of index: The index is calculated based on the 2010 base year volumes and 2010 weights. The index is a magnitude of the volume changes over time, with reference to the volume of the base year 2010.

Index is calculated as a ratio of a volume of a specific component in a specific month to the total volume of that component in 2010.
