

## **Standard Kanaan Adventure:**

### **What we offer:**

We offer two types of adventures based on our three unique Eco-tour routes, these include **Self-drive** and **Guided FIT** tours. We only offer the above two variants in group packages with a **minimum of 8 people** to confirm a tour or the equivalent in moneys. We offer a **maximum of 20 people** as to insure all are catered for equally in terms of accommodations type and that due attention is paid to all.

For individual bookings kindly refer to our affiliated tour operators who offer individual bookings on scheduled Guided FIT tours.

### **Guided Packages:**

The guided packages include all meals, basic beverages, transport, guides, equipment, accommodations and relevant permit fees. All guests need to provide is personal items like clothing, toiletries, towels and preferred special beverages not covered by our basic selection.

### **Self-Drive Packages:**

We provide three meals a day consisting of breakfast, lunch and supper. This includes tea, coffee and fruit juice per meal. On the first day and the last day when we travel in and out we provide dinner and breakfast respectively and lunch on the last day. We provide guides, recovery vehicles and all relevant equipment.

Guest must provide own suitable off-road vehicles, fuel, camping equipment, beverages and other items as described within the relevant section of our booking form.

We also provide the above options and below routes in a photographic version, whereby you are guided by one of our local professional photographic guides. The itinerary is specially adapted to suit photography better and provide ample time to take that perfect desert picture and with very experienced guidance from your photographic guide.

## Eco-Route 1: Kanaan

Kanaan is a 5day route that includes camping wild among the dunes.

The first evening we rendezvous in the deep south of Namibia and sleep over at Betta Camp site, owned by Henry Vermeulen. The facilities offer decent bungalows and campsites that sport hot water and adequate ablutions. These accommodations are not included in the tour price and will be for your own account as our tour starts officially on departure after breakfast the following morning.

**Day 1:** After breakfast we do a short safety talk and get the vehicles kitted with two-way radios so we can start getting used to radio etiquette. From Betta we depart to the Kanaan entrance gate which 70km South West of Betta, we enter the Park at approximately 10h00 the morning. The first day is fairly laid back driving and game viewing, such as Oryx and Springbuck, some Ostrich and if we're lucky maybe a Leopard. Depending on the day's activities and travelling the second evening we'll overnight at a granite outcrop or spectacular dune hole known as the "wake-up call", with a spectacular view, and daunting challenges.

**Day 2:** Up early we start with breakfast at 07h00 and within the first half an hour of driving we'll enter the dunes and start introducing everybody to dune driving techniques and general safety aspects. The first three hours is slightly uncomfortable driving as a result of the grass mounds, thereafter its clean dune driving. We'll be making regular stops to take photos and to get refreshments. We'll be visiting Witberg, an unforgettable sight. During this day's activities everyone will be warming up for the big dunes ahead on the third day.

**Day 3&4:** We will start in “Eben se gat”, it's a surprise and a serious challenge!! On this day we won't cover much distance because of the extremely high dunes but be assured every kilometre will be adrenalin fuelled, testing each driver, passenger and vehicle's true grit. On the third night we will sleep wild amongst the highest dunes in the world and under the most magnificent night skies ever. We ever so slowly creep closer towards the Atlantic, where we will arrive at our oasis in the Namib Desert, our beloved Desert Oasis Camp. Here we shake-off the past days desert living with 2 hot water showers, 2 luxury toilets and a kitchen with a boma large enough to cater for 30 people and for those that are in need of some pampering we have recently also added our tented camp. We spend time in leisure at our camp and guests can choose from angling in one of Africa's best fishing spots, explore the dunes or visit some of the various abandoned mining camps or shipwrecks. Even simply just soaking up the sun while relaxing with a good book at camp. After an exciting fishing day we like to spoil our guest with fresh fish prepared our secret way for supper. Every afternoon we enjoy sun downers as we welcome in the cool desert night and get cosy around the camp fire in our boma, sharing good food, fireside adventures and nursing new friendships.

**Day 5:** It is our last day and once again have an early start with breakfast at 7am and ready to depart at 10am. We bid farewell to our “desert oasis home away from home” and start a 6 hour drive up the coast where you will see various attractions like the greater Meob Bay, shipwrecks, plenty of cape fur seals and jackal, ending your adventure in Walvis Bay.

We do offer the addition of one day to the tour in order to view the wide spread historical attractions of the abandoned diamond mining towns of Grillenberger, Holzhatia and Sarlotenvelde.

**NOTE THAT THIS TOUR CAN BE EXTENDED TO INCLUDE UP TWO ADDITIONAL DAYS AT OUR TENTED CAMP.**
