The regional tables compliment the regional profiles report to accommodate the changes introduced by the 4<sup>th</sup> Delimitation Commission. The information provided include total population, fertility, mortality, education, labour force and households condition/characteristics for the region and constituencies. ## 1.1 Background

The Erongo region is one of the 14 regions of Namibia that was not affected by the 4<sup>th</sup> Delimitation Commission and announced in the Government Gazette of August 2013. The NSA saw the need of producing additional tables to accommodate the changes introduced by the 4<sup>th</sup> Delimitation Commission. The information provided include total population, fertility, mortality, education, labour force and households condition/characteristics for the region.

Erongo Region comprises of seven (7) constituencies, namely: Arandis, Daures, Karibib, Omaruru, Swakopmund, Walvis Bay Rural and Walvis Bay Urban. It worth noting that, changes effected in this region were only within the region and constituencies boundaries.
