COBIT 5 FOUNDATION

COBIT 5 is the only business framework for the governance and management of enterprise IT. Launched in April 2012, COBIT 5 helps maximize the value of information by incorporating the latest thinking in enterprise governance and management techniques, and provides globally accepted principles, practices, analytical tools and models to help increase the trust in, and value from, information systems.

Learn the importance of an effective framework to enable business value. Developed into the elements of ISACA's evolutionary framework to understand how COBIT 5 covers the business end-to-end and helps you effectively govern and manage enterprise IT. Developed for anyone interested in obtaining foundation-level knowledge of COBIT, the course explains the COBIT framework and supporting materials in a logical and example-driven approach.
