

The Friedrich Ebert Stiftung in Partnership with Labour Resource and Research Institute (LARRI) conducted a workshop on ***“Evidence based advocacy for national Social Protection Floors (SPFs)”*** The workshop aimed at equipping Civil Society (CS) representatives with a basic set of skills that allow them to undertake, organize, or supervise quantitative analyses of SP strategies and discern possible financing options to engage with stakeholders working on the development of financing to ensure sustainable resources. The workshop focused on short- to long-term cost projections and analyses of the potential redistributive impact of certain SP measures through micro simulation.
