

EXECUTIVE DEVELOPMENT PROGRAMME (EDP)

The EDP develops executives in central government Offices, Ministries and Agencies, Regional Councils, Local Authorities and Public Enterprises to manage and lead organizations at corporate level in the national and global context to achieve sustainable development. Namibia being a middle income country, achieving our national Vision 2030 being “A prosperous and industrialized Namibia developed by her human resources, enjoying peace, harmony and political stability” in a turbulent, dynamic and complex world requires results driven organizations. The purpose of this EDP is to lay a firm foundation for those executives who are responsible for strategic public leadership responsibilities, with a joint focus on national, regional and international imperatives. One of the strengths of the EDP is the fact that it seeks to provide a wonderful opportunity for networking and building relationships that will be mutually beneficial long after the programme has ended. The EDP will assist participants in self-reflection as well as aid in preparation for further learning, training opportunities and career opportunities while at the same time developing knowledge, skills and abilities required for leadership of the public sector.
