## NIPAM SUCCESSFULLY HOSTS TRAINING OF TRAINERS MASTERCLASS

On 28 th May 2021 NIPAM successfully hosted a training of trainers masterclass. A masterclass is a lesson where someone who is an expert at a particular subject provides practical training and advice to a group of students. Masterclasses usually take place in public to a small group of students. The session is usually an intimate affair. NIPAM's Training of Trainers Masterclass targeted HR and Technical persons in Namibia who want to deliver top-notch, effective and efficient training to their teams in a modern work environment. The master for this masterclass was Dr Nespect Butty Salom, Dr Salom holds a Doctorate in Public Administration from the University of South Africa, he has extensive experience in facilitation, teaching and training. Twenty-five people registered for the masterclass yet only 12 turned up. The 12 participants learnt different facilitation approaches using adult learning principles, conducting the training needs analysis, compiling training reports, and developing institutional training and development plans based on the results of a TNA.
