## NIPAM LAUNCHES T.A.P AMBASSADORS

The Namibian Institution of Public Administration and Management has initiated a teamwork, agility and positive mindset (T.A.P) program that guides and promotes teamwork, agility and positive mindset in a work environment.

Teamwork has always been an essential component of a successful enterprise. The T.A.P ambassador program aims to work with staff members who stand out in terms of the T.A.P categories.

Positivity in a workplace creates a positive attitude and gratitude throughout the institution. A positive work environment creates employees who engage more while teamwork brings people together and makes working together easier and it allows employees to tackle obstacles within the institution better. In an agile work environment, employees are free to manage their time, complete tasks and solve problems in unique ways.

NIPAM encourages its staff to go for covid-19 vaccination to ensure a safer working environment
