15-19 November 2021

NIPAM BRAND CHAMPION FOR NOVEMBER

Branding inter alia is a way of distinguishing one company's product from another. It is an instrument to improve recognition and create loyal customers and employees. NIPAM has been established to capacitate the public sector and such a mandate requires a wide enough reach so that the impact of NIPAM products and services are experienced across its stakeholders. Recognition of a Brand Champion is one of the steps in that direction. Brand Champions are staff members who can motivate other employees in the organisation and external stakeholders to believe in the brand.

Ms Sylvia Katjepunda Manager: Library Services & Information Management is the Brand Champion for November. Ms Katjepunda promoted the brand through various communication channels and word of mouth.

Ms. Sylvia Katjepunda
-Manager: Library Services
