Dear Students, Educators, and Career Seekers,

the Goethe-Institut Namibia is committed to opening doors to international education and career opportunities. German language skills are essential for accessing higher education, vocational training, and professional success beyond national borders.

Together with DHPS, we are proud to host Career Fair 2025, providing young Namibians with insights into academic and vocational pathways in Germany. This event fosters exchange between educational institutions, businesses, and aspiring students, helping them navigate their future with confidence. I encourage all participants to explore the many opportunities available and make valuable connections.

Wishing you an inspiring and successful fair!

Dennis Schröder

Director, Goethe Institute Namibia

Dear Visitors of the Career Fair 2025,

dear Learners in Windhoek and across Namibia,

As the Principal of the Deutsche Höhere Privatschule Windhoek, it is my great pleasure to invite and welcome you to this event.

This fair is special for several reasons. It is the first time the DHPS has organised it in cooperation with the Goethe-Institut Namibia and we are excited to host this event at the future location of the Goethe-Institut.

What makes this event even more remarkable is the strong international interest, particularly from Germany. Many German and European companies are seeking apprentices or in-service trainees. The variety of professions and training programmes on offer is impressive and so vast that making a decision feels overwhelming. To help with this, around 30 exhibitors will provide insights into different companies, businesses, training programmes and career paths. You can ask questions, gather detailed information and engage in personal conversations.

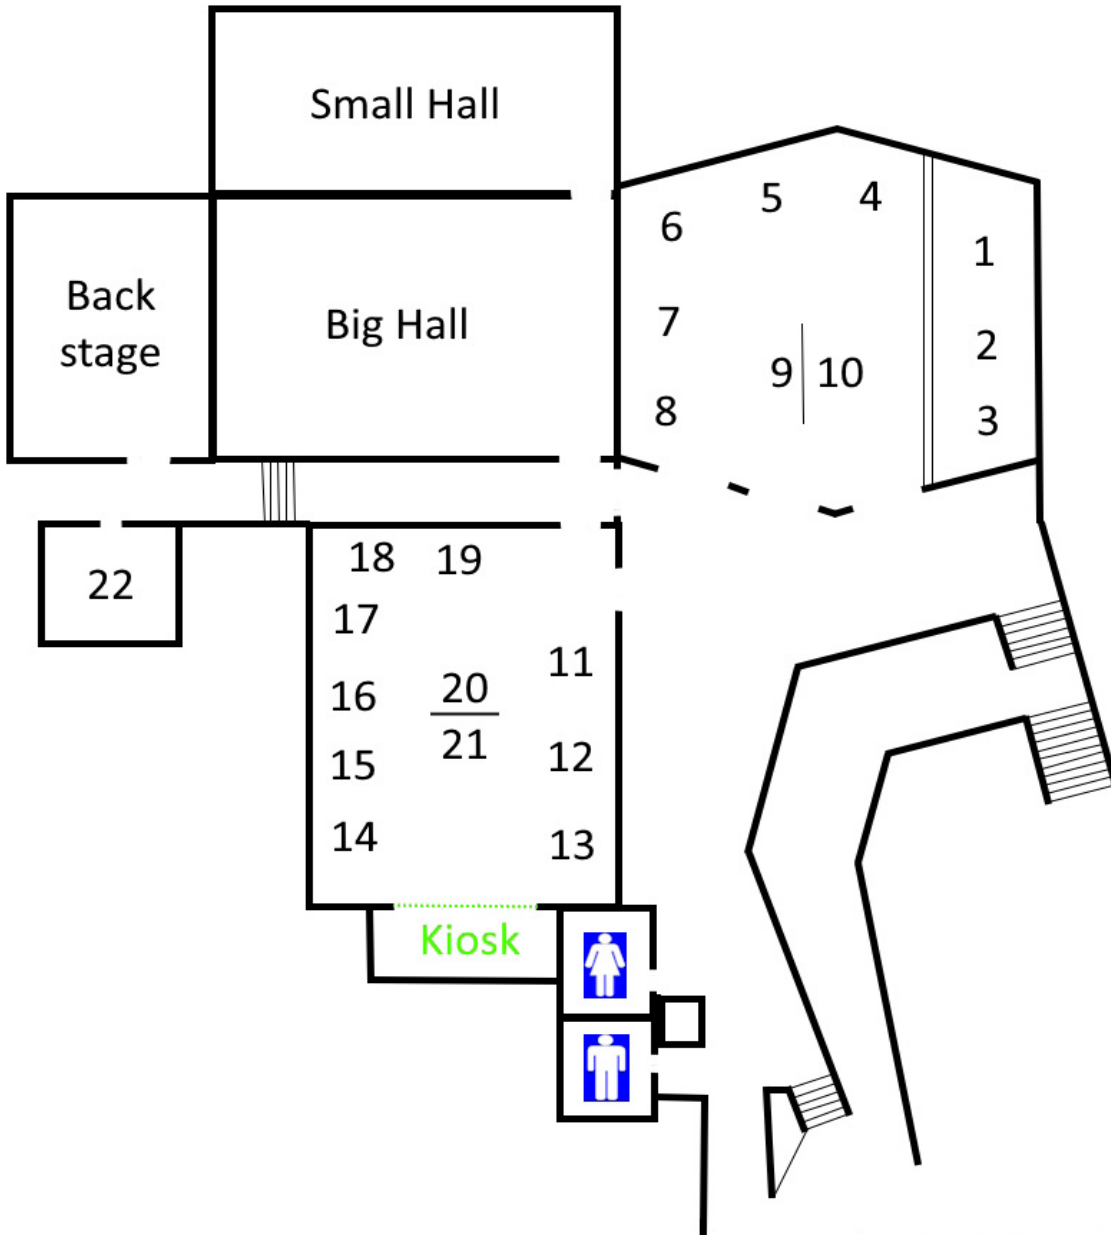

The fair is also a chance to network and possibly even take the first steps toward a training contract or work-study programme. I am especially pleased that the German Embassy is supporting us and will provide information on visa procedures, among other things.

I am confident that the hardworking organisers from the Goethe-Institut, PASCH and DHPS have put together an event you won't want to miss and I am very grateful for their efforts.

Our goal is for our learners - not just those at DHPS - to find their path, explore their opportunities and make informed choices, as this will shape their future.

Jörg Przybilla

Principal, Deutsche Höhere Privatschule Windhoek
